# OVERVIEW of PROGRAM

## About MyExams.Ai

**MyExams.Ai** is a fastest-growing digital platform for competitive exam services in India. It is a proud subsidiary of **ThinkIIT, Kota** – a reputed name in the education sector for over a decade, known for its academic excellence and trusted mentoring.

### **JoSAA Counselling by MyExams.Ai**

MyExams.Ai offers a specialized counselling platform focused on helping JEE aspirants make informed and strategic decisions during the JoSAA admission process.

Last year, through MyExams.ai, JoSAA counselling was conducted where thousands of parents approached us with hopes for their children's bright future.

Through one-to-one counselling sessions, MyExams.Ai helped students and their parents choose the right college. These sessions offered end-to-end support—from choice filling to final seat allotment—ensuring that students were guided at every step.

Our aim is to provide **pre & post exam assistance** that guides students not only during preparation but also through crucial decision-making phases like **counselling and admissions**.

## What is JoSAA

**JoSAA (Joint Seat Allocation Authority)** is the centralized admission system through which seats are allocated across IITs, NITs, IIITs, and other government-funded institutions via centralized counselling process.

### **Final allotment of Seat is influenced by:**

- ✓ Entrance Rank (JEE Main/Advanced)
- ✓ Reservation Category
- ✓ Home State / Other State Quota
- ✓ Seat Matrix & Demand Trends
